

Convert from the given number to the other two bases. Of course a calculator can do this, but that's not going to help you understand base conversion, so I highly recommend doing it manually and trying to go directly from the given base to the others.

Decimal	Unsigned Binary	Hexadecimal
211	11010011	0xD3
455	0b111000111	1C7
426	110101010	0x1AA
